**5 to 14 More Bu. of Wheat Per Acre**

Cleaning and Grading Fall Seed Wheat with a Chatham Mill never fails to increase the crop 5 to 14 Bushels per Acre

This fact has been proven thousands of times and can be proven on your farm. On wheat alone the Chatham far more than pays for itself the first season. You've got rye, vetch, timothy, alfalfa or some other grass seeds that need cleaning, too. The "Chatham" is just the thing for the job. Next winter the Chatham can grade and clean all your spring seed—barley, oats, rye, clover and all kinds of grasses. Just now prices are low and you get a free trial. Hand power or gas.

**Chatham Grain Grader and Cleaner**

I know from personal experience that the Chatham is a practical money-maker for farmers, because I myself own and use one. You can see the machine on my farm or I will set one up on your farm for you to test and try. Drop me a line or phone me today.
